

Darton Honors Program

The Honors Program provides transferable core-curriculum courses for highly motivated students who value participatory learning, scholarly exchange, and innovative instruction. Students are educated about western cultural heritage and current world affairs, and they gain exposure to controversial issues encountered in modern society.

The Honors Program provides students with opportunities for professional and personal development that will assist with their career goals and enhance their personal life. The Honors Program also requires students to become active in the community and participate in cultural enrichment activities.

Program Requirements and Structure

Honors Program participants must have a 3.0 High School GPA and a 1000 or higher SAT score on their combined verbal and writing sections, OR 3.4 Darton GPA (minimum Honors Program requirement). In lieu of an SAT score, a higher GPA is required. A completed application and unofficial transcript must be submitted to the Honors Coordinator.

The program offers two levels of achievement - Scholar and Sage.

- **Scholar-** Students at this level need to complete three courses. A certificate is awarded to Scholar Students.
- **Sage-** Students at this level need to complete six courses. A medallion, wall plaque, and a transcript which says "Honor Program Graduate" are awarded to Sage students.
- *A Leadership development class is mandatory for both levels.*
- Students at both levels are required to participate in cultural, community and leadership activities each semester.
- Students at both levels will be recognized on Honors Day.
